

# Atennea Leisure

The most comprehensive and advanced software for Theme parks and Leisure Centres management

**Atennea Leisure** is the software that allows your theme park or leisure centre to perform all operational and financial management using a single information system.

This advanced and complete software benefits from Quonext's experience providing solutions to companies in this industry.

**Atennea Leisure** integrates into a solution the main operational and administrative areas of these businesses, keeping the single data principle throughout the whole system.

**Atennea Leisure** is a solution built on Microsoft Dynamics NAV ERP, which stands out for meeting the broad set of peculiarities of the Theme parks and Leisure industry. Furthermore, it perfectly suits to each company peculiarities.

## What modules includes Atennea Leisure?

### Central Control

**Atennea Leisure** includes the Central control module, for the reception of POS sales, which are automatically integrated with the Billing process in Microsoft Dynamics NAV. It streamlines the management of Sales channels such as:

- Ticket Office

- Catering
- Store
- Other incomes / Additional activities
- Tickets sales

**Atenea Leisure** also includes a dashboard which provides daily control of accesses and revenue generated by each cost center.

### POS Definition

**Atenea Leisure's** central database includes all POS definitions. Because of this, Administration teams are able to control the company information to be displayed. End users only need to manage Sales!

### Commercial

Features included in this **Atenea Leisure** module provide a detailed management of fares with tour-operators and agencies, loyalty cards, vouchers and tickets in advance.

Vouchers are automatically managed at the ticket office POS, easing the customer invoicing process.

### Management Control

**Atenea Leisure** provides a comprehensive set of statistical reports queries. Thus, POS information can be analyzed and compared to costs, in order to increase the operations profit margins.

PAX statistics, statistics per customer type, articles, budgets comparison, etc. can be also analyzed.

### Purchases

This **Atenea Leisure** module is the best support to efficiently manage offers, multiple discounts, relationships with suppliers, and also online credit notices or fares.

**Atenea Leisure** provides purchases statistics per product-supplier and pending delivery notes.

### Warehouses

This module contains a multi-warehouse application that manages the automatic entry of products through the purchase orders reception. Via automated processes, it also updates:

- Costs
- Cost evaluation definition
- Applications Management
- Transfers between warehouses (cost centers)

## Which are Atenea Leisure benefits?

Users can benefit from the multiple advantages related to **Atenea Leisure**, a solution that becomes the most suitable ERP management software for Theme parks and Leisure centres. Some of these benefits are:

- Integrated management of all areas of these companies
